

CATLADDER & STAIRCASES

Roof Runner provides a versatile **Framework System** designed to support and manage building services, equipment, and access solutions efficiently. This fully adjustable system can be easily modified to meet evolving needs and supports all services independently of the roof structure. Ideal for both new installations and renovations.

Roof Runner includes robust **Cat Ladders** and **Staircases**, ensuring safe and reliable access to systems and rooftop areas. These components are designed with durability and safety, providing a comprehensive solution for all your building access and service needs
